Monitoring with Earth Observation

The image shows a satellite view of agricultural land. A grid of thin white lines is overlaid on the fields, which are divided into various colored sections (green, brown, grey). A small white crosshair marker is positioned in the center of the grid. The background is a dark, textured green, possibly representing a forest or a different type of terrain.

Aerial reforestation!

A scenic view of a lush, green forest. The foreground is filled with dense, vibrant green trees and foliage. In the background, a valley is visible, shrouded in a thick, white mist or fog that obscures the distant hills and trees. The overall atmosphere is serene and somewhat ethereal.

Thank you!
