

GLF 2018

FULL SPONSORSHIP PACKAGES

The Global Landscape Forum is the world's largest science-led platform on sustainable land use. By bringing together partners from different sectors and from around the world, we are helping to protect watersheds, boost agricultural productivity and save peatlands.

Our positive vision of the world's diverse landscapes – from the Andean Mountains to the tropical forests of the Democratic Republic of Congo to the everyday places where we live, work and play – offers a chance for everyone to work together toward a sustainable future. That means a prosperous world of intact landscapes that contribute to human health and well-being.

Already we have connected 3,400 organizations, 76,000 people from 115 countries and reached 70 million people online. We are greening Africa through the AFR100 and Latin America through Initiative 20x20, and helping to restore degraded land around the world through the Bonn Challenge. Our goal is to reach 1 billion people. Help us get there.

The Center for International Forestry Research (CIFOR), UN Environment, and the World Bank launched the Global Landscapes Forum (GLF) at the United Nations Climate Change Conference in Warsaw in 2013 (COP19). GLF's next five-year phase is generously funded by the German government.

Sponsorship Tables

By sponsoring GLF, your organization will be exposed to more than 90 million people online this year through GLF's digital experience, including webinars and social media. Exclusive benefits of sponsorship packages include logo representation, active participation at GLF events and reserved speaking spots for your organization. Our stakeholders such as youth and indigenous groups offer unparalleled opportunities to work together with people from around the world to bring about real change.
